

## Quality policy

Steni's vision is 'Creating the ultimate building expressions for future generations. This vision requires high quality in all internal processes and high quality on all external deliveries.

Quality for Steni means that all deliveries are according to the customer's expectations and in accordance with the specifications as agreed to between Steni and the customer.

External and internal deliveries and processes will be characterized by our values: Respect, innovative, quality and customer oriented.

We will at all times work to satisfy the customer's needs and expectations. Management are responsible for establishing and maintaining good working processes and routines that ensure that the customer's needs are taken care of and that we work efficiently.

Services, products and processes shall be subject to continuous improvement. This includes working methods, development of competence and utilization of available technology.

No one shall get sick or injured by carrying out their work at Steni. We will at all time aspire to facilitate the way we conduct our work to the benefit of each individual worker.

Within these frames each individual has the responsibility for the quality of their own work.

A handwritten signature in blue ink, appearing to read "Geir Olav Farstad". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Geir Olav Farstad  
Chief Executive Officer
